

**Dear Applicant:**

Enclosed please find a non-binding specimen for the **main part of your application (max. 5 pages)** for a full professorship, as required by the University of Klagenfurt. This main part typically includes your application letter and the most informative professional details about yourself. It should enable the reviewers to assess the fit of your qualifications with the requirements of the advertised position in a concise manner.

The main part will be sent to the internal and external reviewers (in accordance with the Austrian University Law 2002) of your application. More extensive attachments to this (e. g., detailed CV and complete list of publications) are possible, and will be fully available to the appointments board. However, these will not necessarily be sent to the reviewers.

Concerning the significance of this specimen, please consider that the indicators, focuses, and cultures of different disciplines are diverse. Some of the categories given as examples (e. g. reviewing for journals) may therefore be irrelevant for your field; others, important ones (e. g. professional/industrial experience, patents) may be missing. Please use this overview as a rough guide only, and design the document as customary in your field, and as you deem it informative and appropriate.

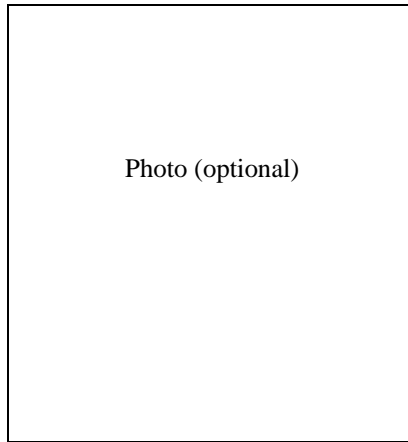

Thank you for your interest in the University of Klagenfurt, and all the best for your application,

Prof. Dr. Oliver Vitouch  
(Chairman of the Senate)

# SHORT CV

## Personal Information

Born Jan. 1<sup>st</sup>, 1972, in ...
