

Best paper award & Best paper candidate @ Institute of Information Technology June 2013

Members of the Institute of Information Technology (ITEC) fortunately received two laudable honors for their brilliant work:

- Best paper award for “Implementation and User-centric Comparison of a Novel Adaptation Logic for DASH with SVC” (authors: Christian Sieber, Tobias Hoßfeld, Thomas Zinner, Phuoc Tran-Gia, Christian Timmerer) In Proceedings of the IFIP/IEEE International Workshop on Quality of Experience Centric Management (QCMAN), Ghent, Belgium, May 2013. URL: <http://www.qcman.org/>
- Best Paper Candidate for a submitted paper within the ICME conference: “Dynamic Adaptive Streaming over HTTP/2.0” (authors: Christopher Mueller, Stefan Lederer, Christian Timmerer, Hermann Hellwagner) – Accepted for publication in proceedings of 2013 IEEE International Conference on Multimedia and Expo (ICME 2013), San Jose, CA, USA, July 2013. URL: <http://www.icme2013.org/> (Note: 622 applications! 36 best paper candidates!)
