

Minister Hahn visits Lakeside Labs project „Collaborative Micro- drones“

Federal Minister for Science and Research Johannes Hahn accompanied by Josef Martinz, member of the provincial government, visited Lakeside Labs on August 29, 2008. Members of Lakeside Labs' research staff presented the recent developments in the project "Collaborative Microdrones". Watching videos captured by the microdrones using a HMD was a special attraction of this presentation. The visitors received the impression of a bird eye's view.
