## INTERNSHIP AT DEUTSCHE TELEKOM R&D LABORATORIES, LOS ALTOS, CALIFORNIA

Our Lab is actively seeking research interns with experience on building mobile video streaming systems. The opening is available immediately. The duties include:

1) Design, implement, and evaluate a mobile video streaming system using Linux and Windows Mobile 6.5. We have done an initial prototype, and plan to add new features to it.

2) Study and address various research problems in mobile video streaming. The goal is to have a systems paper at the end of the internship.

Qualifications: Familiar with Windows Mobile APIs, Visual Studio, GNU toolchain, GDB, socket programming (Linux/Windows), H.264/AVC, and RTP/RTCP .
